2000 Population by Race and Ethnicity* by Zip Codes

The tables above contain information derived from the U.S. Bureau of Census redistricting information. Please note that there are differences between zip code, city and Census boundaries, and therefore these numbers should be used only as a reference. Also note that the information provided is for the area of zip codes *within* the City of Arlington. For exact figures please refer to the source information, available from the U.S. Bureau of Census. A link to the U.S. Bureau of Census and other demographic information can be found on the [planning and development services links page](#).

* Hispanic ethnicity is measured separately from race. That is, individuals may be Hispanic and White, Black, or Asian, etc.

** Table 3 information is for each zip code. For example, in zip code 76001, a total of 77.9% of the 21,522 residents of *that zip code* were white, 10.8% black, etc. This differs from Table 2, which contains information for the city by zip code. In table 2, zip code 76001 contains 6.5% of the city's population, and 7.4% of the city's white population, 5.1% of the city's black population, etc.
